

**First Aid and Medical Officer Cover – LUBC Novice Race Day
Sunday 26th November 2023**

I confirm the below list of names are suitably first aid trained and will be present at Novice Race Day. There will be at least one qualified first aider in each of the three safety launches and there will be first aid cover from land too.

If there were to be any serious medical incidents requiring further support, Warrington Hospital is the nearest Accident and Emergency department. I will make them aware that the event is happening.
